

## General information

In order to give you, as a client of Partner in Tax, the best tax advice I have created a checklist for every year, which states the necessary documents for the tax assessment. These lists are stated at the end of this document. These checklists are not exhaustive, so I urge you to bring/send other documents which you think are relevant. This might be the case in situations like, dismissal, marriage and divorce.

Before we get to the checklist it is important to know what kind of tax assessment you have to submit. Therefore I need to know for what period you lived in the Netherlands (and for what period you were registered at a Dutch municipality).

The electronic form for resident taxpayers needs to be signed with a DigiD, an electronic signature, which can be requested via [www.digid.nl](http://www.digid.nl). For foreign taxpayers another electronic signature has to be requested. I will send you the applicable form.

### Checklists
